Empowering Tomorrow's
Solutions.

Executive Interview - Mike Allen, AIM Global

Listen to AIM Business Development Director Mike Allen discuss the latest initiatives from the Technical Symbology Committee, Visibility Technologies and RFID Experts Groups. Learn about why each of these groups is important to the advancements in our industry and get perspective on how to get involved in the work!

LISTEN

AIM Global's Outlook and Predictions

Nearly two dozen of the most respected thought leaders in the industry offer their predictions on what's in store for 2024. The insights from these experts will be shared in upcoming issues of this newsletter.

Josh Roffman, SVP Marketing & Product Management, Software, discusses the future of labeling lies in cloud. As companies of all sizes strive to drive growth, green their operations, and streamline processes, industry can expect to see a growing number of organizations adopt the cloud for mission-critical business processes including labeling.

READ...

Software is the world's largest cloud-based Enterprise Labeling and Artwork Management provider, offering an end-to-end labeling solution platform for companies of all sizes. They help companies improve accuracy, traceability, and compliance while improving the quality, speed,

and efficiency of their labeling.
